

Spectacle Eyewear EYS2 9175260

uvex

Description	uvex skyguard NT
Lens	Lens material: PC Lens thickness: 2,1 Lens filter: 2-1,2 according to DIN EN 170, UV-filter Lens coating: Supravision HC-AF (anti scratch) Lens colour: Clear. Optical class: 1 Impact resistance: F, (45m/s) according to DIN EN 166
Physical Properties	Ergonomic design. Impact protection up to grade F. Integrated brow, side and cheek guards. Extremely simple lens replacement. Good field of vision. Injection moulded TPU frame to significantly increase wearer protection levels, through minimising the risk of particle ingress. The flexible, closed-pore soft components of the frame enables a customised, individual fit and are easy to clean to promote long term use.
Precautions	Not to be used when welding, cutting, or for furnace work. Not for infrared protection.
Standards	EN166 & EN170
Uses	Safety spectacle. uvex supravision performance coating is three times greater than that required by the standard. This coating is perfect for sudden exposure to condensation and work environments which demand that lenses be frequently cleaned.
