uvex

Description uvex skyguard NT

Lens **Lens material:** PC Lens thickness: 2,1
Lens filter: 2-1,2 according to DIN EN 170, UV-filter
Lens coating: Supravision HC-AF (anti scratch)
Lens colour: Grey. **Optical class:** 1
Impact resistance: F, (45m/s) according to DIN EN 166

Physical Properties Ergonomic design. Impact protection up to grade F. Integrated brow, side and cheek guards. Extremely simple lens replacement. Good field of vision. Injection moulded TPU frame to significantly increase wearer protection levels, through minimising the risk of particle ingress. The flexible, closed-pore soft components of the frame enables a customised, individual fit and are easy to clean to promote long term use.

Precautions Not to be used when welding, cutting, or for furnace work. Not for infrared protection.

Standards EN166 & EN170

Uses Safety spectacle. uvex supravision performance coating is three times greater than that required by the standard. This coating is perfect for sudden exposure to condensation and work environments which demand that lenses be frequently cleaned.
